

Town of Townsend
***DRAFT* Vision Statement**

“The Town of Townsend is defined by its natural character, featuring beautiful lakes and streams, vast woodlands, large open spaces, and scenic views. Future planning in the town should continue to promote preservation of these natural features and development that does not conflict with these resources so the town can continue to provide its residents and visitors with ample recreation opportunities, clean water and air, and the rustic character they are accustomed to. New development and improvements are also encouraged to maintain an affordable tax base, be based on cooperative efforts of surrounding communities, and provide town residents with appropriate services based on their need.”
